

STATIC PROTECTION

Protection of static sensitive parts is a MUST in today's semiconductor market. To ensure the quality that Digi-Key customers have come to expect, the Digi-Key static control program includes proper static safety protection in the following areas:

- Receiving, Incoming Inspection, and QC
• Order Picking
• Final Inspection
• Packaging and Shipping

Shielded metallized bags are used in order picking, and 100% recyclable paper packaging is used in packaging and shipping.

As our program is continuously updated with the latest static control technology, you can be reassured that Digi-Key's static sensitive parts are quality safe, all the way to your door step!

• Please Note: SO-x packages are the same as x-SOIC packages •

Most SMT outdownt parts are available on a Digi-Reel. For Digi-Reel part number, change 1-ND to 6-ND or CT-ND to DKR-ND. See Digi-Key Services on page 2 for additional information.

Table with columns: Digi-Key Part No., Description, Pkg., Price Each (1, 25, 100). Includes sections for Audio/Video, Comparator, and Amplifiers.

Table with columns: Digi-Key Part No., Description, Pkg., Price Each (1, 25, 100). Includes sections for Amplifiers and Differential.

\* RoHS Compliant
