

Plastic and Aluminum Enclosures (Cont.)

Fig. 4 - Plastic Instrument Cases - 1598 Series

Available in both Flame Retardant ABS (black or light gray) and General purpose ABS (light gray). Both versions have a matte textured finish, .064" (1.63mm) thick brushed aluminum front and rear panels, integral horizontal PC board mounts on Eurocard centers, front and rear vertical PC board slots. Both versions accept optional tilt handles. ABS versions carry a UL flammability rating of 94V-0 and are secured with M3 x 5 x 10mm Phillips head screws into integral brass bushings. General purpose ABS versions are secured with #4 x 5/8" (15.9mm) self-tapping screws.

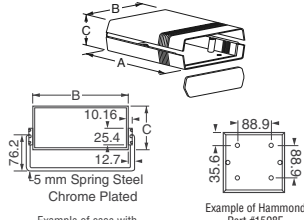

Fig. 5 - Plastic Hand Held Cases - 1599 Series

Available in both economical plastic (light gray) and Flame Retardant ABS (black or light gray). Both versions have these features: attractively styled and ergonomically designed for use as a hand held enclosure; ends sized for infra-red applications; extra deep top and ultra shallow base; two piece lap joint construction; recessed top area ideal for membrane display; internal universal battery compartment; user friendly 10mm x 10mm reference grid is molded into the top interior; six PC board mounting bosses molded into both the top and the base; vertical mounting slots molded into the top for PC boards or optional dividers. ABS versions carry UL flammability rating of 94V-0 and are secured with integral tapped brass bushings. Economical plastic versions are secured with self-tapping screws.

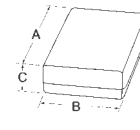

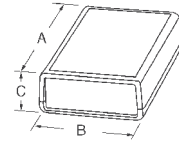

Fig. 6 - Plastic Hand Held Instrument Boxes - 1593 Series

Electronic instrument enclosures. Two-piece lap joint construction. General purpose ABS plastic. Unit is secured with self-tapping screws. Recessed top for membrane display or pad.
