CombiSuppressor — PET Film Capacitor with Integrated Varistor

F

Features: With the CombiSuppressor series, Epcos has developed an innovative solution for EMI suppression in DC motors in motor vehicles. The CombiSuppressor comprises a film capacitor and a multilayer ceramic varistor connected in parallel in a plastic case. This packaging technology offers mechanical protection for the components and facilitates automatic picking and placement.

Construction: • Dielectric: Metallized polyethylene terephthalate • Stacked-film capacitor technology • Plastic case (UL 94V-0) • Epoxy resin sealing • SIOV metal oxide varistor

Specifications: • Operating Temperature Range: -55°C - 125°C, Meets ISO 7631 • Climatic category (IEC 60068-1): 55/125/56
