

High Performance Audio Products

Omni-Directional Electret Microphones

Dim. in mm

FG Series: • Integral FET amplifier • Wide, flat frequency response • Low noise performance • High electroacoustical sensitivity • 3-Wire configuration
EM Series: • Integral FET amplifier • High electroacoustical sensitivity • Low vibration sensitivity • Low Noise • Small size **WP Series:** • Integral FET amplifier • High electroacoustical sensitivity • Low noise • Low vibration sensitivity • Flat response down to very low frequency • Survives submersion in water • 3-Wire configuration **EK Series:** • Integral FET amplifier • High electroacoustical sensitivity • Low vibration sensitivity • Low noise • 3-Wire configuration **EA Series:** • High resistance to mechanical shock • Rugged construction to withstand severe environmental conditions

Fig.	Sensitivity @ 1kHz		DC Supply Voltage	Max. Amplifier Current Drain (µA)	Max. "A" Weighted Noise (1kHz Equivalent SPL)	Output Imped. (Ω)	Digi-Key Part No.	Price Each			Knowles Acoustics Part No.

	-34 ±3	-54 ±3	1.0 - 10	50	28.0 dB	4400	423-1054-ND	37.22	33.53	23.95	WP-3502-P16

◆ RoHS Compliant • Has 1 inch long leads † Has 79 inch long leads

Noise-Canceling Close Talking Microphones

Dim. in mm

NR Series: • Integral FET amplifier • Diaphragm responds to pressure differential giving high rejection of background noise • Small size • High electroacoustical sensitivity • Low vibration sensitivity
CF Series: • Integral FET amplifier • Diaphragm responds to pressure differential giving high rejection of background noise • Withstands severe environmental conditions • Sound ports protected by woven mesh treated with water repellent • High resistance to mechanical shock
WP Series: • Integral FET amplifier • Survives submersion in 1m water • Corrosion resistant • Withstands explosive decompression • High resistance to mechanical shock • Small size

Fig.	Sensitivity @ 1kHz		Microphone Configuration	DC Supply (V)	Max. Amplifier Current Drain (µA)	Nominal Output Imp. (Ω)	Digi-Key Part No.	Price Each			Knowles Acoustics Part No.

Piezo Ceramic, Accelerometer, Magnetic Balanced Armature

Dim. in mm

BL Series: • High sensitivity • Wide frequency range and flat response • Integral FET amplifier • High resistance to mechanical shock • BL-1785 typically used for instrumentation applications • 3-Wire configuration
BU Series: • Ceramic vibration transducer • High vibration sensitivity and small size • Wide frequency range • Integral FET preamplifier • 2 or 3-Wire configuration
BJ Series: • Balanced armature technology • High efficiency, stability and reliability • Self-shielded against external magnetic fields • Small size • Omni-directional • 2-Wire configuration

◆ RoHS Compliant

Waterproof Acoustical Transducers

Dim. in mm

MR Series: • Highly waterproof, no loss of performance after immersion in 15m water • Corrosion resistant • Withstands explosive decompression • Excellent environmental performance • High resistance to mechanical shock • Wire leads attached
